Worldwide connected

We complement our global coverage in alliance with the best agents specialized in sensitive logistics solutions while providing world-class experience.

Better, faster & integrated experiences

We focus our innovation to offer you world-class logistics.

High-coordination for a precise operation

Synchronized logistics for machinery,
spare parts, and components.

Seamless communications between suppliers,
manufacturers, and distributors with **strict SOP
adherence and follow up.**

Technology to provide **cargo visibility, shipment
analytics, and PO visibility.**

Partnership centered around joint planning to
achieve a superior level of **coordination through
SLA's and Risk Management Protocols.**

Broad transportation resources and efficient
procedures to **meet demand forecasts and
production schedules.**

Time-sensitive logistics for complex supply chains

Maximize efficiency, precision,
and certainty in your delivery times.

Solutions designed for
global manufacturing companies.

Customized and comprehensive logistics solutions
for more crafted supply chains.

Agility protocols and contingency plans
to **mitigate risks.**

Experience managing intricate **logistics
operations with tight timelines.**

Time-critical solutions for expedited shipments

When your cargo becomes critical,
there's no room for error.

Wide network of transportation partners
for swift deliveries.

24 / 7 front desk with immediate response.

Expert executives dedicated to your emergency.

Flexibility and agile reaction to face contingencies.

Enhancing efficiency of MRO logistics operations

Experience smooth logistics solutions when machinery, spare parts and equipment are needed in maintenance, repair and operations in your supply chain even when dealing with oversized and overweight cargo.

Reverse engineering planning for MRO success

We provide logistics solutions for several industries, minimizing downtime in manufacturing, oil and gas, chemical and pharmaceutical, mining, railway, automotive, healthcare, food processing, and construction, among others.

Heavy & industrial machinery

Electronic components

Production lines

Facility supplies

Spare parts inventory

Infrastructure equipment

Strategic risk management

Enhance MRO productivity

Smooth and efficient MRO processes are essential. That's why we implement robust risk management strategies to enhance operational resilience and cost-effectiveness, ultimately driving your organization's long-term success and growth.

\ Diagnosis

We perform comprehensive supply chain assessments, pinpointing vulnerabilities, and anticipating external factors that could impact operations while delivering effective solutions.

\ Supplier collaboration

We facilitate communication and collaboration between suppliers, manufacturers, and distributors to ensure proactive transport planning.

\ Risk mitigation

Through Service Level Agreements we specify how disruptions, such as delays, quality issues, or inventory shortages will be addressed and resolved, leading to significant cost savings.

\ Compliance

Our procedures, annual audits and certifications adhere to industry regulations and service standards, avoiding legal issues and penalties.

Control tower

Dedicated attention for MRO operations

Rely on our Control Tower capabilities tailored specifically for Maintenance, Repair, and Operations to attend the highest levels of complex logistics operations, adding more agility and resilience to your supply chain.

Operational Key Account Managers

Specialized professionals ensuring seamless flow of materials and components, minimizing disruptions, optimizing costs, and ultimately helping your MRO operation thrive.

In-house executives

A dedicated Key Account Manager that performs all logistics activities directly at your own plant, performing with our highest service standards.

Service

Our focus is personal attention. Rely on fast response times with clear visibility and control at all stages in the logistics process, with 24 / 7 door-to-door customized solutions and SOP follow-up.

Supply chain optimization

Quarterly Business Reviews to assess and optimize our logistics services by route and transport mode to better serve your needs, drive cost efficiencies, enhance transparency, and align our strategies.

Carrier management

Enhance the management of your contracted carriers and improve connectivity throughout your supply chain to ensure consistent and reliable supply chain performance across all carriers.

MRO order management

Less costs and downtime

Gain complete visibility into purchase order status, fulfillment and international shipping activities. Establish seamless connections with suppliers, manufacturers, and distributors receiving proactive alerts for real-time issue resolution. Use robust reporting and analytics to enhance efficiency and save costs.

\ Technology

To reduce lead times, collaborate seamlessly with your suppliers from the procurement stage to cargo delivery with ePoint, our platform designed to track and manage orders providing real-time visibility for optimizing inventory.

\ Cost savings & optimization

We can strategically consolidate your orders, reducing the number of individual shipments, optimizing transport costs.

\ Supplier management

Our supplier management solution empowers you to make informed decisions, optimize supplier selections, and mitigate risks, all while enhancing collaboration and communication with your valued suppliers.

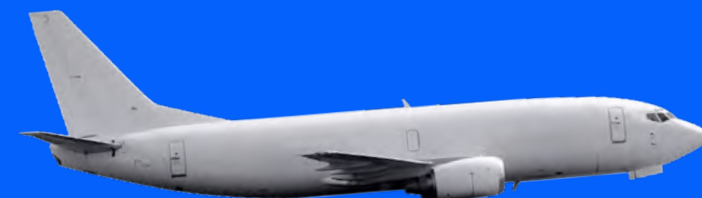

\ Scalability & flexibility

Our services can scale with your business needs whether you need to expand or downsize your MRO operations.

Connecting Europe with Mexico

Thousands of machinery, spare parts and equipment, ranging from large to small, are essential for the Maintenance, Repair, and Operations sector within the manufacturing industry. **To guarantee on-time delivery of all shipments, you require a logistics partner that provides you with maximum control, reliability, and transparency.**

Take control of your supply chain with end-to-end logistics solutions that enhance planning, helping you avoid premium freight costs.

Industrial projects

Comprehensive logistics solutions for entire production lines, oversized and heavy projects

All project cargo requests go through a detailed assessments. Call us and let's decide together all the best solutions for your project!

Air

Full and part-charter
Consolidation
Dangerous goods
Temperature controlled transport

Air freight

A solution to each destination

Rely on air logistics transportation solutions from and to the most important airports in the world, finely adjusted to your needs and schedules.

Economy

Balanced between cost and transit time.
The choice for regular and scheduled cargo with moderate time-sensitive delivery requirements.

Premium

The best flights, assistance & priority access.
The fastest dispatch and delivery via the next available flight to/from anywhere in the world.

Consol

Fast, flexible, and efficient with space guaranteed.
Optimize cost efficiency by reducing handling, documentation, and transport cost per shipment.

Critical

Transform urgent operations into logistic success.
Your trusted solution when faced with market disruptions and limited space availability.

- ▶ **Individualized, dedicated and specialized attention.**
- ▶ **Mitigation and control of any risks.**

- ▶ **Purchase power and high-level relationship with the main airlines.**
- ▶ **Own-offices on main airports.**

- ▶ **Routes and transit times diversity.**
- ▶ **Bonded transfers to main airports in Mexico.**

Ocean freight

Your best-fitting solution

Rely on a comprehensive coverage of the most important maritime routes. We combine expertise and technology to transport your cargo from and to any port in the world.

Full Container Load

Strict time deliveries and full containers assigned for a single client.

Less than Container Load

Room always available. Programmed time schedules to consolidated cargos.

Buyer's Consolidation

We can coordinate multiple shippers and consolidate cargo from Europe and Asia, establishing connections to the Americas.

- ▶ The most competitive logistic solution.
- ▶ Expertise transporting high-volume cargo.
- ▶ Diversity on routes and transit times.
- ▶ Strategic planning to mitigate risks.
- ▶ Tailor-made consultancy and coordination according to your cargo requirements.

Truckload freight

We are leaders in ground freight solutions

Get to know the best ways and means. As experts in routes all around the world, we can tailor-made the best ground transportation solutions for your most specific needs.

FTL

Strict time deliveries and full unities assigned for a single client.

LTL

There's always room for more. Programmed time schedules to consolidated cargos.

FTB

Expertise to manage any special-dimensions cargo.

- ▶ **Fast efficient solutions for your ground freight needs.**
- ▶ **Special rates according to volumes.**
- ▶ **Online quote + technology to enhance your operations control.**
- ▶ **Alliances with over 600 strategic partners and 200 U.S. consolidated cargo terminals.**
- ▶ **SOP development per project.**

Time-critical solutions

Urgent shipments made easy

We deliver your time-sensitive cargo fast, precisely and cleverly. Our distinct variety of solutions were built to satisfy your different delivery requirements.

Rely on services from charter, dedicated and express flights to personalized deliveries through our Hand Carry assistance.

24 / 7 SERVICES

Air Charter

Small, medium and 747 complete or partial units for local or international services.

On-Board Courier

A flexible and less bureaucratic solution, to move up to 120kg per hand carry.
